

Fungal Diastase IP

Pharmaceutical Enzymes

PRODUCT DESCRIPTION

Fungal Diastase IP is an amylolytic enzyme of fungal origin that hydrolyses starch into dextrins, maltose and other simple sugars.

Supplied to Indian Pharmacopoeia (IP) grade, it is a common component of digestive enzyme formulations such as tablets, capsules and syrups, often in combination with other enzymes.

KEY FUNCTIONS

- Hydrolyses starch into dextrins and simple sugars.
- Commonly used in digestive enzyme formulations.
- Supplied to Indian Pharmacopoeia (IP) grade.

TYPICAL APPLICATIONS

Digestive enzyme formulations

Anti-inflammatory formulations

Wound-care preparations

Enzyme-replacement formulations

Mucolytic preparations

Nutraceuticals

HANDLING & DOSAGE

Optimum dosage depends on substrate, process conditions (pH, temperature, time) and the desired result. We recommend lab or pilot trials; our application team can suggest a starting dose. Handle as an enzyme/biological preparation: avoid dust formation and inhalation, and wear gloves and eye protection.

SPECIFICATION

Product	Fungal Diastase IP
Product range	Pharmaceutical Enzymes
Enzyme activity	Specified per grade — on request
Pharmacopoeia grade	IP
Physical form	Powder; other formats on request
Packaging	25 / 50 kg HDPE drums or retail pouches
Storage	Cool, dry place in tightly closed original containers, away from direct sunlight
Documents	Certificate of Analysis (CoA) on request

MANUFACTURING & QUALITY

Manufactured by Enzyme Bioscience in an FDA-registered, GMP and ISO 9001:2015 certified facility in Surat, India, with in-house R&D and QC laboratories.

GMP

ISO
9001:2015

FDA
registered
