

Lactobacillus Gasseri

⌘ Probiotics · 10-300 billion CFU/g

PRODUCT DESCRIPTION

Lactobacillus gasseri is a lactic acid bacterium naturally present in the human gastrointestinal tract, used in probiotic dietary supplements and fermented milk products.

Specific strains have been studied for metabolic and digestive wellness applications. Claims for finished products depend on the specific strain and the brand owner's own substantiation.

It is used in capsules, sachets and fermented milks intended to support gut microbiota balance.

KEY FUNCTIONS

- Gut-associated probiotic for supplements and fermented milks.

TYPICAL APPLICATIONS

Dietary supplements

Functional foods & beverages

Infant & women's health

Animal & aqua health

Silage inoculants

Custom synbiotic blends

HANDLING & DOSAGE

Optimum dosage depends on substrate, process conditions (pH, temperature, time) and the desired result. We recommend lab or pilot trials; our application team can suggest a starting dose. Handle as an enzyme/biological preparation: avoid dust formation and inhalation, and wear gloves and eye protection.

SPECIFICATION

Product	Lactobacillus Gasseri
Product range	Probiotics
Potency	10-300 billion CFU/g
Physical form	Powder; other formats on request
Packaging	25 / 50 kg HDPE drums or retail pouches
Storage	Cool, dry place in tightly closed original containers, away from direct sunlight
Documents	Certificate of Analysis (CoA) on request

MANUFACTURING & QUALITY

Manufactured by Enzyme Bioscience in an FDA-registered, GMP and ISO 9001:2015 certified facility in Surat, India, with in-house R&D and QC laboratories.

GMP

ISO
9001:2015FDA
registered
